The Cooling System

Smartcooling
system operates as
the temperature changes

Equipped with 12V-5A fans that keep
product in safer normal conditions,
no use under high temperature.

Wireless Charging

Truly wireless and free

5W wireless charging,
compatible with Qi protocol;
Say goodbye to frequent
plugging and experiencing
the free flow without restraint

High Energy Density Lithium Batteries

Keep safe with BMS protection

High Quality Battery Cell

2600mAh

1000 times charge and discharge lifecycle, capacity is maintained at
approximately 80%

Product Applications

Know the Power Levels Easily

Smart LED display provides precise charging data

Amazing Portable Power Product for Outdoors

Implement automatic tracking of high-power points of solar panels to make greater use of solar energy

Solar panel charging supported with powerful MPPT module

One is Enough

Charge anywhere and Power anywhere

12V regulated power works longer and stable, Good match with vehicle refrigerator for cool drinks
