

Product Description:

Battery connect cable factory in China

Type: single or twin cables with different colors

Conductor: Class 5 plain annealed fine copper wire or tinned copper wire

Conductor nominal cross section area: 10.0mm²~120mm²

Insulation: flame retardant PVC, Rohs compliant PVC

Insulation color: Red, Black, Yellow, White, Blue, Green/Yellow or other color requested

Max. operating temperature: 70°C, 90°C

Package: 100 meters per roll, or as per requirement

Main product model:RV, ZR-RV, H05V-K, H07V-K, Battery cable

Product standard: IEC60277, BS6500 VDE0281, GB/T 5023,IEC60332

Product characteristics:

Very flexible for easy bending, high temperature resistance, low temperature resistance, flame retardant and high electrical conductivity, also fire resistance, UV resistance or Rohs compliant can be available as per request.

Product application:

Inside buildings in embedded installations and auto/truck battery, charge/electric equipment.

Product Advantages:

1. The conductor is made of **new pure annealed copper**, ensuring a good electrical properties and a very good conductivity.

2. We are a very **professional cable manufacturer** with advanced production equipments and strict quality inspection system, ensuring the products complying the standard and customized requirement.

3. We have more than **10 years' export experience** and exported products to **more than 60 countries** over the world with a good reputation internationally.

4. We not only offer **good products** and **good service** to our customers, but also try to **develop our staffs**, offer a good training, good working and living conditions to the staffs.

5. Also we are a company with **highly social responsibility**, often take part in public benefits activities, like tree planting, aiding poor students, green environment activities, etc.
