

Product Description

Nominal Voltage: 6/6KV,6/10KV

Conductor: class 2 strand conductor, pure annealed copper

Conductor nominal cross section area: 25~1000sqmm

Insulation: XLPE

Insulation color: nature color or as request

Shield: Conductor semi-conducting screen + Insulation semi-conducting screen + Metallic screen

Sheath: PVC, flame retardant PVC, Rohs compliant PVC

Sheath color: black or as per request

Max. operating temperature: 90°C

Package: wooden drum or as per requirement

Main product model: YJV, YJV62,YJV72

Product standard: IEC60502, BS6622, VDE0276, GB/T12706, IEC60332

Product characteristics:

High temperature resistance and low temperature resistance, flame retardant and high electrical conductivity, also fire resistance, UV resistance or Rohs compliant can be available as per request.

Product application:

It applies to the transmission and distribution lines with rated voltage up to 6/10 kilovolts, while flame retardant power cable is used in the places with special demands of flame retardant property , where cable is laid tightly.

Product Advantages:

1. The conductor is made of **new pure annealed copper**, ensuring a good electrical properties and a very good conductivity.

2. We are a very **professional cable manufacturer** with advanced production equipments and strict quality inspection system, ensuring the products complying the standard and customized requirement.

Products Quality inspection equipments

3. We have more than **10 years' export experience** and exported products to **more than 60 countries** over the world with a good reputation internationally.

4. We not only offer **good products** and **good service** to our customers, but also try to **develop our staffs**, offer a good training, good working and living conditions to the staffs.

5. Also we are a company with **highly social responsibility**, often take part in public benefits activities, like tree planting, aiding poor students, green environment activities, etc.
